

rimote™

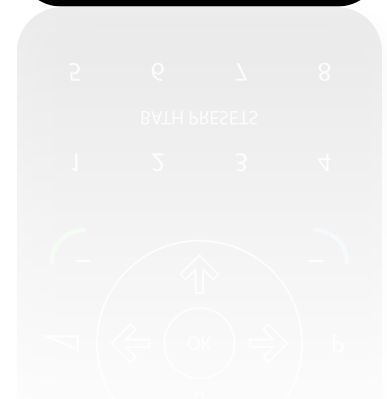

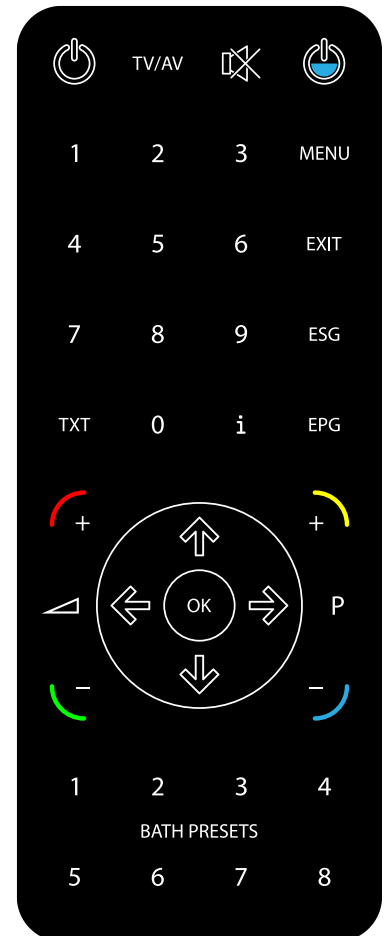

rimote™ was developed specifically for bathovision and allows full control of a bathomatic system through bathovision's OSD menu.

Waterproof with touch button control and induction charging rimote™ is also a learning remote and can be used on most systems controlled by an infrared controls. Customisation allows a huge scope of schemes, making it the perfect accompaniment to any interior design.

The innovative induction charging station allows the remote to charge contactless during the times it is not being used. It is held in place without any mechanical fittings. The docking station fits into a standard electrical shaver socket wall box.

top features:

- touch control
- waterproof
- enables control of bathomatic system
- learning capability
- design customisation possible
- induction charging
